

SMART Exchange

Website: <http://exchange.smarttech.com/>

Description

This website provides teachers with access to learning resources that can be used with SMART technology. It is a database of downloadable files such as a variety of SMART software lessons, manipulatives, and PDFs. There is a full visual preview of all SMART Notebook files so teachers can easily evaluate a lesson before downloading it.

The resources are submitted by educators, top educational publishers and SMART. A membership is required but it is free. SMART Exchange also supports 48 different countries in 23 languages.

How to Use the Resource

- First, create a free account so you can download the items you like.
- Do a detailed search:
 - Select the subject, grade, country/language, and type in a specific topic.
 - Narrow the results by type.
- Do a standards-aligned search:
 - Choose the curriculum, grade, and subject.
 - The expectations in the curriculum are outlined and paired with relevant resources to choose from.
- Upload and share a lesson you created. SMART Exchange supports the upload of SMART Notebook files, SMART Table Activity packs, 3D content, SMART Ideas files and PDFs

Why this Resource is Useful

1. **Subject/Grade specific resources** – SMART Exchange offers learning resources for grades K-12 in various subjects and can be downloaded for personal use.
2. **Lessons and Question Sets** – You can find useful SMART notebook lessons and SMART notebook question sets. The lessons are interactive and allow students to be engaged by working on the smart board. The question sets can conveniently be used with clickers.
3. **Community** – You can upload and share SMART Notebook lessons you create or recommend lessons you find. SMART Exchange provides teachers with access to all of SMART's learning resources and is an opportunity to connect with colleagues in a professional community.
